

# Health Claims Examiner Training Program

**GALAXY**  
MEDICAL COLLEGE

Health Claims Examiners organize and manage health information data by ensuring that it maintains its quality, accuracy, accessibility and security in both paper files and EHR systems. HCE's review and verify patient account information against insurance program specifications; routine patient billing inquiries and problems, follow-up on balances due and submit invoices to insurance companies. They also enter data electronically to process transactions, payments, denials and adjustments. Completing Workers Compensation claims and collection of unpaid accounts is another responsibility of these professionals. HCE's also analyze and code procedures and diagnoses using ICD-10 CM & PCS, CPT and HCPCS coding.
