

Why Choose Us?

We are one of the least expensive schools.

Let's face it: money talks. We understand the investment you are making in yourself by attending Galaxy, and that's why you won't catch us charging extra fees for things like uniforms or backpacks.

We care about you.

We offer child-care referrals as well as academic and career counseling. And when we say career counseling, we mean it. We work one-on-one with graduates to help them find employment after graduation.

Our students love us.

Don't want to take our word for it? You don't have to. Here's what a former student said:

"Galaxy changed my life completely. My favorite part was the instructors who would go out of their way to give every student a chance to be successful. They believed in me and pushed me to do better and believe in myself."
